OLD BUSINESS

- Update on 2019 Cases.
  The owners of the Microblading business is no longer moving into the downtown office space.

ZONING CODE UPDATES

The board members discussed the list of prioritized zoning code updates. With the information provided by Mrs. Hansen, the list was reordered to facilitate progress.

1. Triggers for subdivision regulations. Bellbrook’s Code is almost exactly from the Ohio Revised Code until 711.133. Bellbrook’s code but needs to add “as amended.”
   Mrs. Hansen explained that subdivision regulations are needed when land is prepared for a subdivision including planning roads and utilities. Although there are no current plans or available land around Bellbrook, future annexation would need these codes in place.
   a. Lot Consolidation

2. Habitual Offenders.
   This also led to a discussion about the process for reporting property complaints. The online form doesn’t require the reporter to identify themselves. The board would like to ensure the option to submit a complaint anonymously.
   Mrs. Hansen supplied an example from the Kettering Property Maintenance Code that is better defined than the present Bellbrook code.
   There are offenders of other code violations other than property maintenance such as permitted use violations.
   Mrs. Hansen added that the board needs to look at the amount of the fines and make decisions on an agreed upon amount.

3. Fee Analysis – Mrs. Hansen presented a fee analysis spreadsheet she created that compared Bellbrook’s residential permit fees with other similar municipalities including Yellow Springs, Xenia, Sugarcreek Township, and Beavercreek. As she spoke with other Zoning administrators, they realized that some of the fees are inadequate for the amount of work required. The spreadsheet showed similarities and differences in amounts. Mrs. Hansen added a recommendation on whether to keep or change each kind of permit fee.
   The board appreciated the work put into the spreadsheet. They asked if comparisons with areas with similar demographics to Bellbrook such as Brookeville and Germantown but in different counties.
   Mrs. Hansen presented an example of the work and cost involved in approving a sign permit in downtown. The current sign permit fee is $50.00. Her calculations found the cost equals $76.83 for a simple request. The purpose was to provide information to balance against the idea that permit costs should not be a burden to business owners.
4. Sign Code – Mrs. Hansen explained the process required for a business to put up a new or changed sign. If the business is in the B4 Village District, it must first submit a request for a Certificate of Appropriateness (COA) from the Village Review Board. This requirement is regardless if the sign meets all the existing codes and even if it is temporary.

The Board discussed and agreed that this code should be amended to remove the requirement for signs that meet all of the code or are temporary be approved by the Zoning Administrator without requiring a hearing even if the business is in the B4 Village District. Mr. Thompson proposed that this item will provide an immediate benefit and should be completed within the next four months as other pertinent codes are being updated. Mrs. Hansen answered that she could have this completed within four months. She cautioned that at a previous time it was proposed to remove temporary signs from the responsibility of the Village Review Board hearing, but the Village Review Board wanted to retain that requirement.

Mr. Bennett expressed his opinion that maybe the Village Review Board should be removed as they are a hindrance to downtown development.

Mr. Tuttle asked about the process to make code changes. Mrs. Hansen explained that the Planning Board can vote to make recommendations for Zoning Code changes to City Council since they were the board who created the Village Review Board. It is then Council’s final decision to make.

NEW BUSINESS

• Lot 176 Winter Haven Block F

The owner, Dan Devol, Devol Builders is requesting initial feedback from the Planning Board concerning a proposed site plan. This is a revised plan for an office for his business and is 1438 square feet and meets all of the setback requirements for the O-1 Office Building District.

Mr. Bennett submitted a letter from Brady Harding listing his concerns which are:

1. Was is the percentage of lot coverage versus green space?
2. The board needs to see the official plan for parking spaces.
3. How many customers per day are projected to visit the office?
4. It looks as if the floor plans submitted are flipped.
5. What are the details of the curb cut?
6. Parking questions
7. Are there plans for landscape screening?

Mrs. Hansen added that she does not anticipate that the location will be used for anything other than an office. The lot is at a busy intersection however both the Sheriff and the Service Director believe this proposed use with not cause any issue. The site is on a lot smaller than the other residential lots near it.
The board requested that their questions be delivered to the property owner.

**COMPREHENSIVE PLAN GANTT CHART REVIEW**

The board looked at the chart and the items that have been started. They then discussed which items could be prioritized.

Goals discussed:

1.2 Create a Special Active Downtown Overlay – Mrs. Hansen stated that she could complete this goal in a short amount of time. It outlines the main business section of town.

1.3b Amend zoning code to reflect short term recommendations – the zoning code updates being started by the board would be included in this goal.

2.1 Become a Certified Local Government - The City Manager is the person responsible for meeting this goal.

2.2 Develop a Historic Site Inventory – Mrs. Hansen explained that she had been in contact with Greene County about the regulations required to develop a historic site inventory. This will aid in making the building codes more defined and easier to work with.

5.1 Implement the pedestrian, bike, and multiuse path plan. The City Manager has attended meetings with Greene County to discuss the Master Trails Plan.

**OPEN DISCUSSION**

Mr. Bennet welcomed Mr. Tuttle to the Planning Board. He also introduced himself explaining that he worked for Xerox for 42 years and served on City Council for 16 years.

Mr. Tuttle introduced himself to the Board. He worked for Clark County Auditor’s Office for 12 years in several areas. He has a degree in finance. After moving out of state for a few years he, his wife and their boys moved back to Ohio and his is staying home taking care of the kids.

Mr. Stangel welcomed Mr. Tuttle and stated that he retired in 2012 after being a high school teacher for 35 years.

Mr. Thompson introduced himself stating he retired after 22 years in the Air Force, was in Civil Service for 5 years, and now on staff at Riverside Research County.

**ADJOURNMENT**

Mr. Bennett moved to adjourn the meeting at 7:25 PM and was seconded by Mr. Harding.

Accessory Uses

Accessory structures and uses customarily incidental to the above permitted uses. (Article 12.03)

Discussion:

The distribution of cremated remains while not listed in the zoning code as a permitted use in the zoning ordinance seems to be of no consequence to the surrounding businesses and should cause no detriment to the neighbors, the flood plain or the Well-Head Protection District.

However, Planning Board must consider when making a recommendation to the BZA the specifics of the Kennel. Mr. Grech wishes to use these temporarily, as they already exist in the current business, so no more so than currently. All veterinary clinics in the City of Bellbrook are currently either in the B-4 District or in the Planned-Business District. In our code Planned Industrial and Agricultural are the only two Zoning Districts where kennels are permitted yet none of our Veterinary Clinics exist in these districts that staff are aware of. Also, it should be noted that the closest residentially ZONED parcel is approximately 434 feet away. Yet the closest residence is 234 feet away. Planning Board should decide if this use is in accordance with the zoning district and if they wish to forward a recommendation to BZA for approval (with or without conditions) or disapproval.
